

Solidarity with Palestine

On Saturday, Oct. 14, Chicago-area landlord Joseph Czuba forced his way into the home of his tenants, a Palestinian-American Muslim family, stabbing to death 6-year-old Wadea Al-Fayoume and wounding the boy's mother in his brutal, racist rampage.

We view this horrific act of violence, clearly linked to the Israeli state's U.S.-backed genocide unfolding in Gaza, as a testament to the deep-rooted Islamophobia that prevails in the United States and globally, as well as the unchecked entitlement of landlords and the capitalist class, who routinely help themselves to our homes, our paychecks, and our lives.

TANC demands an end to the occupation of Palestine and an end to U.S. collaboration with Zionist Israel on the backs of workers' hard-earned dollars. Workers and tenants must resist Zionist propaganda, organize against eviction globally, and oppose U.S. imperialism.

Committed to internationalism, we stand with working-class tenants who have resisted imperialist violence, whether those in Palestine facing violent displacement by Israeli settlers, or those living in the Bay Area and larger United States due to Western intervention, war, and extraction in the third world.

Against landlords, capitalism, and Islamophobia worldwide — Justice for Wadea Al-Fayoume, and solidarity with Palestine!
